

# ALICE IN WONDERLAB

A podcast about science.  
And the women who make it.

## Call for voice messages!

For my upcoming podcast on science done by women, I am looking for voice messages from aspiring scientists/researchers.

If you are a girl

- of any age
- at any stage of education (pre-PhD)
- dreaming of a career in science/research
- in any scientific field (human and social sciences included!)
- fluent in English enough to talk briefly about yourself

I would love to have your voice in my podcast!

Drop me an email at  [kaleidacoustics@gmail.com](mailto:kaleidacoustics@gmail.com) 

I will give you instructions on how to record and submit your voice message.

Looking forward to hearing from you!

Maria
